

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): A hair device, comprising:

~~insert for inserting a hair bundle into~~ a hair holder comprising a flat tube made of a sheet in such a design that ~~[[the]]~~ a hair bundle can be inserted from an opening at one end of the tube toward an opening at an other end of the tube~~[[,]]~~; and

~~[[the]]~~ a hair ~~insert~~ insert to insert the hair bundle into the hair holder, the hair
insert comprising~~[[:]]~~ a long main body having, at one end portion thereof, a hair catching part including a plurality of teeth on an inner circumferential face of one of the sides of the hair catching part to catch the hair bundle, and the long main body is ~~configured to be~~ smoothly inserted with a hair bundle caught on the hair catching part thereof into the tube from the opening at the one end toward the opening at the other end~~[[:]]~~ and a space forming member, slidably coupled with the long main body, that slides from a first position below the hair catching part to a second position ~~covering~~ extending above an outer circumferential face of the one of the sides of the hair catching part that includes the plurality of teeth to cover the plurality of teeth to hold the hair bundle around the teeth.

Claim 2 (Canceled).

Claim 3 (Currently Amended): The hair ~~insert~~ device according to claim 1, ~~which~~
wherein the hair insert is stiffer than the hair holder.

Claim 4 (Currently Amended): The hair ~~insert~~ device according to claim 1,
wherein

the space-forming member is thicker and wider than the hair catching part, and

the space-forming member is slidable in a longitudinal direction of the hair inserter.

Claims 5-32 (Canceled).

Claim 33 (Currently Amended): The hair ~~inserter~~ device according to claim 1,
wherein

the hair catching part includes an upper stopper positioned adjacent to the plurality of
teeth, and

in the second position, the space forming member is fixed in place by the upper
stopper to completely cover the plurality of teeth to lock the hair bundle around the teeth.
